

Calderdale™

We are an established and thriving firm based in the heart of Yorkshire. A family run business for 50 years, we are proud to complement our heritage with a professional spirit and a dynamic design ethos. Renowned for manufacturing and supplying quality flooring for the leisure and hospitality industry, we work collaboratively with architects, interior designers and contractors to provide solutions for their projects. Our aim - to minimise the stress and maximise the value associated with the single largest unbroken surface in any building - the floor.

# Axminster Carpet

Both broad and narrow loom carpets are manufactured on-site from superb yarns which are mostly sourced locally and dyed to order.

Our consultants and designers help you to choose the carpet that is the best solution for your project, both aesthetically and functionally.

To help you visualise and progress a project that will use carpet, our designers are on hand to create designs, layouts, CAD drawings and arrange samples as required.

Our carpets are available in a range of widths and a variety of weights and can be seamed to plan to allow for an exact fit and less wastage.

# Bespoke Design

Our in-house design team make certain that you get the precise product that you want and need.

Our enthusiastic and can-do designers go the extra mile to turn your aspirations into stunning final products. As experienced and talented specialists, they are expert in understanding and interpreting your brief, providing inspiration and an ability to push creative boundaries, from vision to concept to solution.

On hand to guide and advise, our friendly design team work collaboratively with you to inspire and realise your plans. If you already have ideas, mood boards or samples, we're happy to work with those. If however you need inspiration and support, we'll use our creative abilities to develop ideas and provide solutions.

# Iris

## Woven Vinyl

If you are looking for statement flooring that is both beautiful and durable, look no further than Iris, our desirable range of resilient flooring.

Our vibrant, versatile woven vinyl range is a new and exciting collection available in module tile and sheet format with a stunning and inspirational colour palette. The structured surface lustre allows light to 'bounce' giving the appearance of ever changing colour and shade depending on your position and the angle of the light. Being tough, waterproof, slip and stain resistant, together with its ease of maintenance, it offers infinite specification opportunities bound only by your imagination.
